Language Requirements

All exchange programmes require a good command of English, as all classes are conducted in this language. Although exchange students are not required to submit an official English test score during their application, we would like to stress that exchange students are expected to have an English level similar to IELTS 6.0, CEFR B2 or TOEFL 550 / iBT 80 / 213 cBT. We trust our partner universities to only nominate students who meet this requirement, therefore ensuring they will not face any difficulties in class due to the language.
